Pride Of Eastern Long Island

Hovercraft, a mode of transportation for tomorrow, developed by Republic Aircraft in Montauk typifies the changes to come in Eastern Long Islands economy. What once was a solely agricultural area is now becoming a research center for tomorrow.

Pictured Above—Almost engulfed in its own spray, the Hovercraft demonstrates one of its great advantages over conventional vehicles—its immediate transformation from sea to land craft. Landing whether high or low tide isn't a problem for the Hovercraft.

"SPECIAL KIND OF PERSON"

May 24, 1965

Dear Dave:

The news that the police are going to crack down on traffic violators is wonderful. The slaughter of human lives should be stopped. But what of a child's heart-break caused by a non-caring motorist? It takes a special kind of person to take candy from a baby. It also takes a particular breed of person to run over a child's pet and leave it lying dying in the road. My oldest son, age 13, a child ill with kidney disease, had a little Siamese cat given to him a year ago. Tonight someone hit her and left her lying on the road to die. It was still light when this happened. Fah Zing was a blue-point, so whoever did this knows what he

did. I only wish he knew how heart-broken he left my son. If only he had stopped and brought her into us, perhaps we could have helped her. But even if we couldn't perhaps just knowing he was sorry would have helped my son. Perhaps some day he will be faced with the same heart break my son has had to bear. But then again perhaps he will be able to replace his child's pet. For me, this is impossible, I am alone with four children. Only God knows why people care so little about each other's feelings. I find it impossible to explain to my son.

Sincerely,
Mrs. Audrey McCook
Calverton, N. Y.

On June 2, 1965, Suffolk Life published the above letter about the senseless death of Scott McCook's beloved pet Fah Zing. For several days our 'phones were busy with offers from readers all over Eastern Long Island. About the time that Fah Zing was killed, John McGarvey's

Siamese cat had a litter. He offered one of these new kittens to Scott. The pictures above show that John McGarvey is "a special kind of person." Through his generosity Scott McCook now has a new pet.

CELEBRATE 55th ANNIVERSARY

Parishioners and friends of Monsignor Brennan honored his 55th anniversary in the priesthood at a dinner in Riverhead. Father Brennan is held in high esteem by both young and old of all faiths for his many works of charity and humanity. The North Fork has been fortunate in having a man of his caliber working amongst its residents. Left to right: Co-Chairman Edward Litchhult, Mrs. Eugene Travers, Reverend Leland Hogan, Chairman, Monsignor John Brennan, and Mrs. John Keogh.

EDITORIAL

FIRST ASSEMBLY DISTRICT

As we write this editorial ten days before election we cannot endorse any of the three candidates for State Assemblyman. Assemblyman Perry B. Duryea has the best experience, the most knowledge of Eastern Long Island's problems, and has the influence to get things done. He is a seasoned legislator and should acquit himself well in the chaotic reapportionment session bound to come soon. However, precisely because of his influential position his vote against the sales tax would have meant more. We don't agree that there is no alternate method of raising money to put the State on a pay as you go basis. The sales tax is confusing, annoying, and expensive. It required many new employees on the State pay roll just to administer it. Duryea's stand on the sales tax prevents our endorsement of his re-election.

Joseph Fallon, the Democratic candidate, has based his entire campaign on repeal of the sales tax but we don't know how effective he'll be if elected. Joe Fallon seems to be an independent

conservative Democrat with good legal experience. However, he lacks insight into many of the real problems of the First Assembly District and because of this we cannot offer him our endorsement.

Arnold Bayley, the Conservative candidate, is unrealistic in his approach to today's problems and how to satisfy the needs of the individual in our society. We do need a Town, State, and Federal Government to build roads, maintain schools, help conserve our natural resources, and for many other aspects of living that the family cannot provide for itself. Arnold Bayley has no legal nor government experience. He cannot possibly represent what the people want and need in the Albany Legislature, so we cannot endorse him.

We hope between now and election day to choose the best man for the State Assembly. Eastern Long Island is in a rapidly changing period of development. It is very important that our Town and State representatives be intelligent, competent men who truly represent Eastern Suffolk. And Why Not?

GO ! GO ! VOJVODA

There are three good candidates for Supervisor before the voters in Riverhead. Supervisor Robert Vojvoda, the Republican candidate, is up for re-election after serving the community for two years. Mrs. Pat Tormey, the Democratic standard bearer, is wife, mother, and civic leader with executive experience. Michael O'Shea, the Conservative candidate, has been an active and interested citizen.

SUFFOLK LIFE endorses Supervisor Robert

Vojvoda. He has been a hard working dynamic, and foresighted Supervisor. This Town had been stagnating in its status quo for many years before Vojvoda took office. Within two short years he has developed community spirit, recreational facilities, a master plan for future growth, a favorable climate for the right kind of industry, increased parking facilities, encouraged new retail businesses to settle in our area, and many other progressive and wise accomplishments. Vojvoda has been an in-

Be Thankful

The strength of a great nation is in its people. People who are proud, but not boastful, who know humility, but not weakness, who are industrious, but also generous, are the foundation of a land whose freedom is the only light that shines hope for many less fortunate people. In the foreground of a prosperous land, our symbol of pride, humility, and generosity is a pair of hands clasped in a prayer of thanksgiving. Our warm wishes for a grateful and joyous Thanksgiving

'TOYS FOR TOTS'

Suffolk County AFB'S annual "Toys for Tots" campaign for deserving base and area children has spread to one of the local communities.

Mattituck Girl Scout Troop 232, Junior Girl Scouts of America, journeyed to the base with their leader, Doris Jenkins. With them they brought discarded repairable toys they had collected in the Mattituck area.

Each year, during the Christmas season, the 22-girl troop takes on a special project to aid less fortunate children. This year, they made the base's "Toys for Tots" drive

their project.

It all came about when a scout's mother was on base and noticed a large red box with "Toys for Tots" markings. This gave her the idea for her daughter's troop project this year. Her suggestion was adopted and the scouts' 1965 project came to a successful conclusion with the "Toy Drop" at the base. Accepting the toys on behalf of the base "Toys for Tots" project, was Col. F. S. Gabreski, 52nd Fighter Wing Commander; Capt. Edwin Hapgood, project officer and David L. Fay, base fire chief.

Greenport Shopping Jamboree

Win A Free TV

The leading retailers of Greenport are sponsoring an old fashioned Christmas Jamboree. The village is gaily trimmed for the festive occasion. The spirit of the season prevails throughout the stores. Inventories are at their peak and outstanding values can be found in every retail outlet.

Santa will arrive at the village Christmas Tree Saturday morning, December 11th at 10 AM. The Tree is located at the intersection of Front and Main Streets. Gay Old St. Nick will expect a large turnout of boys and girls to greet him with their requests that he will try to fulfill. For the late comers who will not be able to be on hand to herald his arrival he will be making a tour of all the stores during the day.

In appreciation for your patronage,

of the Greenport Shopping District during the Christmas Season the retailers will give away to a lucky shopper a brand new Portable Zenith Television, plus many other valuable prizes. There is no obligation to enter the contest. Just fill out the coupon below of this edition and deposit it in any one of the following participating stores. Drawing will be held Wednesday afternoon, December 15th.

Grant's, Arcade Dept. Store, Levin's Mens and Boys Shop, Little Yankee Shop, Van's Hardware, Coronet Restaurant, Jaeger's Dept. Store, Goldin Furniture Store, Horton's Furniture Store, Kalin Florist, Levinson's mens store, Sturm's Shoe Shop, Brandi's Shoe Store, Peconic Bay Electronics, Hope and Connies Gift Mart, Paradise Sweets, S. CRISIS!!!

Suffolk Life is faced with its biggest crisis since its inception six years ago. Congress has just passed a Postal Bill which will increase our postage by 280%. This rate increase is exorbitant compared to those received by other classes of mail. First class mail will only be raised by 20%; paid second class will be raised by 25%; third class mail will go up 35%; but, controlled free-circulation publications, such as Suffolk Life, will have to pay a rate increase of 280%.

This grossly unfair Postal Bill was shaped to a large extent by the very powerful paid circulation newspaper lobby. Free-circulation newspapers, such as Suffolk Life, have proved to be too much competition for the mediocre weekly newspaper. Instead of trying to compete with us through better advertising services and more interesting editorial content, paid newspapers have lobbied to price us out of business. Postal rate increases was half of this bill and the other half was pay increases for postal employees. Coupling the pay increases with the rate increases was a sure way to make Congress pass it.

This Postal Bill makes freedom of the press a mockery. It makes Congress the protector of the powerful paid newspapers at the expense of their less influential competitors. Is this Congress for the people of the people, and by the people? Recent action on this Postal Bill makes us believe that Congress has become full of politicians who merely do what is expedient and personally advantageous.

Suffolk Life cannot possibly pay a 280% rate increase. Therefore we are faced with the choice of deleting all editorial and news content from the paper; such as editorials, letters to the editor, pictures, notices of coming events, etc. and becoming a straight advertising paper or to put Suffolk Life on a paid subscription basis.

Many of you, our readers, have indicated that you thoroughly enjoy Suffolk Life in its present form and would be willing to buy a subscription to preserve its editorials and other news content. Putting Suffolk Life on a paid subscription basis will mean we can then qualify for paid circulation second class mail. If we can qualify for second class paid circulation we will also be free of the many cumbersome controlled circulation rules that often prevent us from printing

more news. Paid second class regulations allow much more latitude and would enable us to give you a better publication.

We want to continue printing editorials and other news content but we will need your help to do so. Reluctantly, we ask you, the reader, to purchase a subscription to Suffolk Life. The rate will be \$1.00 a year. This breaks down to less than 2¢ per week. For this small sum we will be able to continue sending you, Suffolk Life with its thought-provoking editorials and letters to the editor; pictures of you and all your friends and neighbors at community affairs; and other news items of pertinent interest.

The success of this decision depends on you, all of our readers. You have the ultimate choice. Is it worth \$1.00 a year to you to continue receiving Suffolk Life in its present form? We hope your answer is yes. It is important that everyone of our readers subscribe to Suffolk Life in order for us to qualify for second class. Qualification is based on total paid circulation.

We sincerely hope that we can continue to bring you Suffolk Life in its present form. We are a firm believer in freedom of speech and of the press and realize its invaluable function in fighting for and preserving the democratic way of life.

Keep Suffolk Life coming. Subscribe today. And Why Not?

VOLUME 7 NO. 25 SUFFOLK COUNTY, N.Y. FEBRUARY 7, 1968 FIVE CENTS

THE GETTYSBURG ADDRESS:

"Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated can long endure.

We are met on a great battlefield of that war. We have come to dedicate a portion of that field, as a final resting place for those who here gave their lives that that nation might live.

It is altogether fitting and proper that we should do this.

But in a larger sense, we cannot dedicate — we cannot consecrate — we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract.

The world will little note nor long remember what we say here, but it can never forget what they did here.

It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced.

It is rather for us to be here dedicated to the great task remaining before us — that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion — that we here highly resolve that these dead shall not have died in vain — that this nation, under God, shall have a new birth of freedom — and that government of the people, by the people, and for the people shall not perish from the earth."

Educational Crisis In Greenport

By ROGER V. MARSHALL
SUFFOLK LIFE Staff Writer

GREENPORT— — Colin Van Tuyl, a 17-year old quarterback and first baseman on Greenport's football and baseball teams, respectively, has mixed emotions these days.

He's glad to be back in school with his buddies—but he's also chagrined because it looks as though he won't be able to represent Greenport against other schools in inter-scholastic competition.

The reason is the proposed school budget for 1968-69, which is still up in the air as Greenporters get ready to attend a budget hearing on Sept. 24 and cast their ballots— for the fourth time— on Sept. 27. Meanwhile, the Greenport school is operating under a state-mandated minimum budget, which is sort of a never-never land, but under which the board of education has the authority to decide what to spend or not to spend.

In the meantime, while their voting elders bicker and disagree, which is the democratic way of life, youngsters like Colin and many others are having to go without bus transportation, a school lunch and milk program, and inter-scholastic athletics, in addition to which they'll have to purchase their school supplies and pay rent for the use of textbooks— unless the budget is approved.

"That's what they mean by the generation gap," uttered a village philosopher as he sipped his coffee at a shop on Front Street. "There's a lack of communication and the kids have to suffer on matters on which they have neither voice nor control."

The philosopher's view, however, is not shared by a segment of the community, which has gone to the polls three times— June 11th, July 9th and Aug. 13th— to defeat the proposed budget, 123 to 119, 221 to 108, and 504 to 314, in that order.

On the surface, the reasons why Greenport's qualified voters and taxpayers have nixed their 1968-69 school budget thus far are many and varied, ranging from personal resentment against increased taxation to a general lack of understanding of or refusal to accept inflationary economic trends, such as higher salaries and wages, increased social security benefits (which went into effect earlier this year), steep interest

rates, skyrocketing school construction costs, and infinitum.

Some retired people in the area who live on a fixed income voted against the proposed budget for obvious reasons. There's a limit to how much you can stretch a restricted income. However, some retired persons have qualified and taken advantage of a New York real tax exemption program enacted into law in 1966, and adopted by the local school district, under which property owners are granted a 50% tax exemption if they are 65 years of age or over and meet certain statutory requirements.

The budget, as proposed by the Greenport Board of Education, totals an estimated \$1,291,122, which is \$133,422 higher than the 1967-68 budget of \$1,157,700. This means that local taxpayers would have to pay \$7.60 per one hundred dollars of assessed valuation compared to the \$5.92 per hundred they paid under the 1967-68 budget.

In an effort to ease the burden on taxpayers, or make the tax bite more palatable, the board of education came up with a contingency (or austerity) budget totaling \$1,233,292, under which Greenporters would pay an estimated \$6.94 per hundred, which is \$1.02 more than they paid last year.

Unfortunately, Greenport voters can vote neither for nor against the contingency budget. They can only vote on the regular budget. This contingency budget is the prerogative of the board of education and only the board can make the decision of putting it into effect.

The hitch here, of course, is that with a contingent or "austere" tax rate of \$6.94 per hundred, the board pared from the budget certain items which directly affect the parents of kids attending school (such as athletics, bussing, textbooks, supplies, cafeteria, etc.) It is as though the board trimmed services which would leave parents no alternative but to approve the regular budget.

A close look at the budget shows that with a teaching staff of 53 (one less than last year), the school's expenditures for teachers' salaries alone went

EDITORIAL

VOTE "YES"

"Shall the Town of (5 Eastern Towns) petition the legislature and take other steps to create and erect the County of Peconic from the Five Eastern Towns of Suffolk County?"

Voters of the five eastern towns will be asked, next Tuesday, to vote on the question of splitting Suffolk County into two counties. This question is on the ballot only to get the opinion of the residents. The results of the ballot will have no official bearing on the creation of a new county, but it is, by far, the most important question that will be asked of us on election day. If, as we hope, the voters register a majority "YES" vote on this question, then our officials, both local and state, are obligated to initiate a specific course of action to bring about the creation of a new county.

Suffolk Life wholeheartedly favors the creation of a separate county. We have weighed the opinions of many, we have examined the feasibility studies and we have conducted our own poll on the matter. There are no doubts in our mind. We MUST have a separate county.

Under the reapportionment, that will go into effect this coming January, the five eastern towns will retain only 1½ votes out of a total of 18 on the county level. Impress that disproportionate figure upon your minds, good people, and carry it with you into the voting booth on election day. 1½ votes out of eighteen, yet we will continue to pay into the county coffers approximately 25% of the cost of operating the county while our hands will be tied and our voices stilled on matters pertaining to the spending of that money.

As part of Suffolk County it is estimated that our contribution to the 1969 budget will come close to \$40 million. As a new county we could operate for

between \$13 and \$14 million dollars, and this INCLUDES our portion of Suffolk's bonded indebtedness. We are satisfied that ALL necessary county services can be provided within these figures. NO important services would have to be eliminated. NO important services would be forced to curtail their budgets.

The splitting of the county could be accomplished in an orderly, economical manner, as was pointed out in the Griffenhagen-Kroeger report. Existing county buildings could be utilized by both counties on a "use" fee basis. Few jobs would be eliminated. Both counties stand to benefit—Suffolk gains financially by reducing her necessary work force and Peconic gains by picking up experienced ex-Suffolk employees.

The advantages in creating a new county are legion. We will be able to adopt a form of government that will be more in line with our needs and more responsive to our people. It will be more economical to run. Many of the services that we are now paying a disproportionate share for are ONLY needed by the west end. A new county will give each and every one of us an opportunity to have a say in the development of the east end and a voice in her destiny. Far from being isolationist, as some of the opponents of the new county make us out to be, our future will produce a coordinated and planned development based upon sound judgment and principles.

We cannot urge our readers strongly enough to pull the "YES" lever on this question on election day. We must show our county and state leaders that we are of one mind on this question. Vote "YES" and urge your friends and neighbors to do the same! And Why Not?

Action Demanded!!!

Do any members of the Suffolk County Board of Supervisors care about us out here? Do they understand our plight-our desire to survive financially? Do they realize what additional taxes and a county sales tax will do to our budgets? Do they realize that the average income per family in Suffolk County is just over \$5000. Do any of them remember what it was like to provide shelter, food, clothing and other necessities on just over \$100. per week. The average resident is doing this and holding his head high. He is doing it by the sweat of his brow and mighty careful handling of his money. In other words he watches every penny and wastes none.

We believe that our supervisors are basically intelligent men. We hope that they still possess some common sense. We believe that they are fully cognizant of the position they are placing the average resident in by imposing a sales tax that will cost the average resident an additional \$80. per year and an additional real estate tax that will cost the average resident an additional \$100. to \$150. in taxes or rental payments.

We are convinced that there is not one man who sits on the county board who is not aware of waste and fiscal abuse within the county. There isn't one man who doesn't know that the budget could be trimmed and still provide the residents of this county with the necessary services. It appears that there is not one man on the board who has the courage to do what has to be done. What are they afraid of? Obviously, they are not afraid of the voters. We can only presume that they feel it is easier to go ahead and allow the taxpayers' money to be wasted, and ask for more, than it is to put a stop to the waste and demand efficiency.

As we have stated before, we strongly suggest that a non-partisan committee be appointed to investigate the financial picture of the county before any new taxes are imposed. We still say that this is the only answer to the problem of getting Suffolk County back on a sane and responsible fiscal path. . .If the readers of Suffolk Life are tired of having their hard earned income eaten into through these outrageous taxes, we suggest that they put their weight behind our proposal. Below is a petition. We ask that you

sign it, have your friends and neighbors sign it and we will present it to the county board and demand that the people's wishes be obeyed.

If enough people sign this petition we are sure that the board will listen to the voters and initiate such a move. It is high time that we stand up and be counted on this matter which is so important to us. We urge you to sign and return it today. To be effective this petition should be returned within four days to this paper. Please return to Suffolk Life, Box 167, Riverhead or Box 262, Westhampton, or bring it to our office on Montauk Highway, Westhampton, by November 30th. And Why Not?

The undersigned hereby petitions the Suffolk County Board of Supervisors to withhold any new forms of taxation until a non-political committee has had an opportunity to investigate the cost of operating the county. We urge that such a committee be set up and be given the powers to study all aspects of spending in the county and to subpoena whatever public records and officials may be needed to complete the study.

Pro Speaks in Mattituck

In the above, picture we see some very happy youngsters and a handsomely dressed young man. What makes this picture exceptional, however, is the fact that the young man is Jerry

Philbin, the all - pro Defensive End of the N. Y. Jets. The boys are all of the Mattituck Little League, and they had quite a time with the pro March 8th at the Mattituck Fire House.

Suffolk Life takes top honors National Newspaper Convention

BUFFALO, N. Y. May 17, 1969 NATIONAL AWARDS WON BY WESTHAMPTON PUBLICATION

David J. Willmott, publisher of Suffolk Life, Suffolk County, N. Y., received fifteen of his industry's highest awards for publication excellence at the just - concluded 20th annual convention of the National Association of Advertising Publishers at Buffalo, New York.

NAAP, as spokesman for the entire free circulation publication field, sponsors the stiffly competitive Awards Competition each year to determine the finest examples of free community papers in each of eleven categories. Suffolk Life won fifteen awards in nine categories.

Suffolk Life took the following awards: GENERAL EXCELLENCE, 1st Place; BEST SINGLE AD, 1st Place (Oaks of Southampton), 2nd Place (G. A. Luce of Riverhead), Honor Award (Boot Tree of Southampton), Honor Award (Lentins of Riverhead); BEST ORIGINAL EDITORIAL, 2nd Place (Peconic County); BEST ORIGINAL PHOTOGRAPHY, 2nd Place (July 4th Week - end at Port Jeff), 3rd Place (Grumann Air Show); BEST ORIGINAL WRITING,

2nd Place (Education in Greenport), COMMUNITY SERVICE, 3rd Place; ADVERTISING PROMOTION, 3rd Place (E. L. I. Shopping Spree), Honor Award (W. T. Grant Back To School); BEST AD SERIES, Honor Award (Richard York of Riverhead), Honor Award (Barrie Bros. of Patchogue); SPECIAL INDUSTRY AWARD, Metro Associated Service, Best Creative Idea 1st Place (Oaks of Southampton).

The paper's awards were announced at a special Awards Luncheon honoring winners held at the Statler Hilton Hotel in Buffalo and attended by community paper publishers from the U. S. and Canada.

The 1969 Awards Competition was judged on the campus of Rochester Institute of Technology, Rochester, New York. Chief judge was Prof. Alfred F. Horton, Chairman, Advertising Division at R. I. T. Assisting him were Elmer Lapp, Elmer Lapp Associates (Advertising), Rochester; Walter W. Shaw, Printing and Design Consultant, Rochester; Prof. W. Frederick Craig, Staff Chairman, Journalism Division, RIT; Prof. Robert A. Ohl, School of Photographic Arts & Sciences, RIT; James I. Horton, Instructor, Advertising Art Division, RIT.

Suffolk Life Endorsements

This year Suffolk Life has personally interviewed, in depth, the candidates running for Town Supervisor and the County Legislature. All of the candidates were invited to our offices to discuss the issues. Our

endorsements are based on their past history, their awareness of the job they are running for and, of course, their qualifications.

COUNTY LEGISLATURE

In our choices for county legislators we looked for intelligence, strong character, independence and a burning desire to effect economies within the county. Our endorsements cross party lines. No political party should have exclusive rights in the running of Suffolk County. The men we picked may differ in political philosophy but their independence and lack of ties to a political machine should enable them to

work for the good of all Suffolk County residents. They are embarking on a brand new job in this county, they must not blindly follow party dictates. We urge all of our readers to put aside party ties for this election. These men should be judged on merit and merit alone. Look them over carefully; then vote for those who you feel will be most responsive to your needs.

TOWN SUPERVISORS

A town supervisor above all should be a good administrator. He should be knowledgeable about his town's affairs and aware of its problems. We would like him to be positively stingy with the taxpayers' money. In judging the incumbents, who are running for re-election, we looked carefully at the record. Have they done all that they could for their towns on the least amount of money? We judged the challengers by their knowledge of their town, their proposals for improvements, their sincerity and, again, their attitudes on fiscal matters.

We believe the candidates we have endorsed to be the best that have come along in years. Under NO

circumstances should an endorsement for supervisor be construed as a blanket endorsement for his party. Suffolk County needs LEADERS not political parties. Please, please don't vote the straight party label unless you are convinced that each man is the best for the job. We believe that the voters can best be served by mixed boards with capable individuals of varying political philosophies. This is the best way to stop corruption before it starts. Suffolk Life takes great pleasure in presenting to you, the voters, its endorsements for 1969. We urge you to vote for them. And why not?

One Solitary Life

He was born in an obscure village, the son of humble people. He grew up in that small town and worked with His father in a carpenter shop until He was thirty. Then for three years He was an itinerant preacher. He was only thirty - three when the opinion of the tyrants and ill wishers turned against Him. Some of His friends deserted Him.

He was turned over to His enemies and went thru the mockery of a trial. He was nailed to a cross between two thieves. While He was dying His executioners gambled for His clothing. When He was dead He was laid in a borrowed grave through the pity of a friend.

Nineteen centuries have come and gone and He is the worshipped figure of the human race and the leader of mankind's progress.

All the armies that ever marched. All the navies that ever sailed. All the parliaments that ever met. All the kings and rulers that have ever reigned put together, have not affected the life of man on this earth as much as that . . .
