Program Registration Policy

The Mattituck-Laurel Library provides a variety of programs to encourage greater participation in culture, art, education and the pursuit of information. The library views programming as a means of highlighting local talent and expertise, as well as providing a forum for presentation of new ideas.

Fees for programming events may be charged to reimburse the program presenters for the cost of materials provided to attendees or to offset the cost of the program presenter's fee. In the absence of a presenter's fee, the library may collect a registration fee to be refunded upon completion of the programming event.

Due to potential space constraints, preference may be given to residents of the library district.
